Subject: Building Update (EAP Report) - April 23, 2008

As you know the Board of Equalization arranged for group sessions with EAP facilitators for staff regarding their concerns over the BOE Headquarters Building. At the request of meeting attendees, the EAP facilitator has prepared a report. This report has been reviewed by the employee unions for accuracy and has been posted on our website today. Click [here](#) to see the report.

We appreciate everyone's time and input and will be working to address the issues raised in the report. We wish to thank the unions for their participation and assistance.
