**Subject:** Building Update - Cafeteria

There will be a new face behind the coffee kiosk bar on Monday, July 9, 2012 when Mr. Bill Spahr takes over as interim vendor. Some of you may recognize Bill and his staff from the Federal Building on Capitol Mall where Bill currently operates a small vending facility and hot dog stand.

The Department of Rehabilitation's Business Enterprise Program (DOR/BEP), has awarded a contract to remodel the cafeteria. Over the next month, there will be contractors working behind the gated area in the cafeteria. This remodel project is scheduled to be completed in August 2012.

We look forward to reopening the cafeteria this summer under Bill's leadership and providing BOE employees with a new menu that includes healthy choices and a salad bar, as well as grill favorites.

Please join me in welcoming Bill and his staff as we move forward in creating a positive and favorable atmosphere for BOE employees to dine while providing the best possible food service.

We appreciate your continued patience and understanding during this transition period.

Thank you,

Liz Houser
