A. Conduct of Audits and Investigations by the BOE and Decisions Based Thereon

Board staff shall have complete discretion concerning the level of audit or investigation of any individual feepayer prior to the issuance of a notice of determination. The Board staff decision concerning the fee shall be based on the audit or investigation findings and consistent with existing precedent and the relevant statutes, except as otherwise set forth below. Board staff may provide to DTSC any information discovered through the audit or investigation that is relevant to the fee liability.

B. Billings or Changes in Billings That May Affect DTSC's Regulatory Program

Board staff may conclude, after an audit or investigation, that it is appropriate to issue a determination for one or more of the hazardous waste fees based on an interpretation of the hazardous waste fee law that may be new or novel or that otherwise may differ from the Department's interpretation. In such circumstances, Board staff shall follow the procedure set forth below. An interpretation that may affect the Department's regulatory program includes, but is not limited to, a factual situation requiring an interpretation or definition of the terms "responsible party," "closure," or "disposal." Issues that would not affect the regulatory program include, but are not limited to, a determination of the correct application of the statute of limitations, whether an entity is a corporation or other organization that may be subject to the fee or whether a fee may be returned when an application is withdrawn.

C. Notice to Department Staff of Billing or Change in Billing

Board staff shall provide written notification to Department staff when issuance of a determination requires an interpretation by Board staff of the hazardous waste fee law that may affect the Department's regulatory program, as described above. Such written notification shall be provided to Department staff at least fourteen (14) calendar days before Board staff is scheduled to meet with the feepayer to discuss the results of the audit or fourteen (14) calendar days before the notice of determination is sent, whichever is earlier. If Department staff responds in writing before the scheduled meeting or before the determination issues, Board staff shall issue the determination consistent with the Department's position concerning imposition of the fee.

If Department staff does not respond in writing before the scheduled meeting or before the notice of determination is sent, Board staff may proceed in accordance with its recommended interpretation.

Board staff shall, upon request, advise Department staff of the basis for the issuance of the determination in matters that do not present new or novel factual situations or require an interpretation of the hazardous waste fee law that may affect the Department's regulatory program.

Section 43452(d) *also* requires that: "Any appeal of a determination that a substance is a hazardous or extremely hazardous waste [that is the basis for a refund claim] shall be made to the [DTSC]."

Such appeals shall be handled in conformance with the provisions of Section IV, Appeals Process, below.

The DTSC shall implement a procedure for resolving, or otherwise settling feepayer disputes concerning the classification of substances as hazardous or extremely hazardous waste, as authorized by H&SC section 25205.23. The DTSC procedure shall provide the feepayer an opportunity to present evidence and argument concerning such classification to a DTSC representative authorized to resolve or settle the dispute. The DTSC shall notify Board staff of the outcome of the resolution or settlement process, as set forth in Section I, subsection D.1), above, and Board staff shall process the case as appropriate, as set forth in the provisions of Section IV, Appeals Process, below.
