Thanks Andy. This was good timing. I learned earlier today that recent rumor in the office had us moving in March. This email should squash that. I for one am anxious to move forward.  
Have a great weekend.

Phil

**Subject:** San Diego District Office Lease

I have great news to share with all of you... the lease for our new district office location has been completed and work on the site has been initiated. The new San Diego District Office will be located at: 15015 Avenue of Science, San Diego, CA 92128. This location is about 21 miles from our downtown location and 16 miles from the San Marcos branch office. There is ample free parking for taxpayers and employees.

What is next?

In the next few days we will be distributing an informational flyer on the amenities and services in the area. In addition we hope to arrange time for staff to tour the facility but we need to ensure the safety of employees while work is being completed.

We are working with BOE Human Resources and Labor Relations Division to provide formal notification to both the Union and employees.

With regard to transportation to the new district office location, the Metropolitan Transit System (MTS) services this area and staff can use the MTS Trip Planner to determine which bus routes to take. I have attached the link below for your convenience. As a reminder, the state transit subsidy of 75% of purchase price up to \$65 is available to anyone that uses public transportation. In addition, I am aware of staff already looking forward to the move and planning carpools and vanpools—remember that the carpool lanes on Int. 15 are free for anyone with 2 or more persons in a vehicle.

As we move forward with the consolidation and relocation of our offices, please feel free to contact me with any concerns you may have. We estimate that the move to the new location should be completed by January 2012. Many of you have already expressed some concerns and we are working with you to lessen them by providing you with information and advance notice. Many of you have also expressed your interest and delight knowing that we are committed to move from the downtown location eliminating the significant number of health and safety issues in our current location. The consolidation of the offices will have a significant savings on our district operations making it more efficient.

Please join me in looking forward to our move and making the San Diego District one happy family.

Thank you,

ANDRES ESTRADA  
DISTRICT ADMINISTRATOR

I feel this will be a better environment for all staff, with better work conditions. I also feel this will help eliminate some of the differences in office procedures between FH and FHB, which will allow the taxpayers to be properly informed and in most cases have the same point of contact.

Cheers to the new and improved San Diego District Team ☺

**Subject:** RE: San Diego District Office Lease

Hi Andy,

I am extremely excited about our merge. Combining fh and fhb to one unit, new location, and new amenities is a great way to start the New Year. Given the conditions of the downtown building I think this is step towards the right direction. I understand that the commute for a few employees may be difficult but given the amount of employees it would be hard to accommodate everybody. I believe the transition thus far has been smooth with updates and ample of time to adjust. Hopefully the free parking, public transportation, and carpooling can overcome the cost of parking downtown.

Personally, with the new move it will cut my commute time in half. Those that travel from San Diego to San Marcos can understand that the traffic on the 78 can be extremely congested. I'm excited that I will be able to save time and money. In the words of our Deputy Director, "Fast, Cheaper, Better".

Thank you for the updates,

Tuan Nguyen
