## **Michelle Steel Announces California Gasoline Use Figures**

Michelle Steel, Third District Member of the Board of Equalization, today released gasoline consumption figures that show Californians used less gasoline in November 2007 than the same month a year ago, a decline of 3.7 percent. October to November gasoline use is down by 86 million gallons or 6.5 percent.

Californians used 1.233 billion gallons in November 2007, down 47.6 million from the same period a year earlier.

The average pump price of gasoline in November 2007 was \$3.39 per gallon, up 88 cents per gallon from the average pump price in November 2006 of \$2.51.

*Editors Note:* The attached chart shows a month-to-month comparison of percentage changes of gasoline use in California for 24 months from December 2005 through November 2007.

The publicly-elected Board of Equalization is able to monitor gallons sold through tax returns filed by fuel companies.

Elected to the Board of Equalization in 2006, Michelle Steel serves as the country's highest ranking Korean-American elected official. She represents the more than 8.5 million taxpayers of the Third Board of Equalization District, including the counties of Los Angeles, Orange, San Diego, Riverside, Imperial and San Bernardino.

The five-member State Board of Equalization (BOE) is a publicly elected tax board. The BOE collects more than \$53 billion annually in taxes and fees supporting state and local government services. It hears business tax appeals, acts as the appellate body for franchise and personal income tax appeals, and serves a significant role in the assessment and administration of property taxes.
