# *Taxable Sales In California (Sales & Use Tax)*

*2011 Third Quarter*

*Taxable Sales in California* is a quarterly report on retail sales activity in California, as measured by transactions subject to sales and use tax. The report includes data about statewide taxable sales by type of business as well as data about taxable sales in all California cities and counties.

The following factors should be considered when using these data:

1. Total taxable transactions do not necessarily indicate the gross sales of stores dealing in taxable items. Only sales subject to sales or use tax are tabulated; excluded are sales for resale, sales of nontaxable items such as food for home consumption and prescription medicines, and taxable sales disclosed by Board audits.
2. Some businesses dealing primarily in nontaxable activities, such as services, manufacturing, contracting, or wholesaling, either sell some merchandise that is subject to sales tax or use some items that were purchased ex-tax and on which use tax must be paid. Such transactions are included in the tabulations.
3. Data are compiled by type of store but cannot be broken down by commodity.
4. Businesses are classified according to their principal line of merchandise or service.

Readers are invited to submit comments and suggestions designed to improve this publication to:

# TAXABLE SALES IN CALIFORNIA

## THIRD QUARTER 2011

Taxable sales in California continued to rise for seven consecutive quarters, increasing 8.8 percent over the third quarter a year ago. Third quarter taxable sales totaled \$132.0 billion, \$10.6 billion more than the third quarter of 2010. Taxable sales increased at a growth rate 3.6 percent faster than California personal income in the third quarter.

In constant dollar terms, third quarter 2011 taxable sales increased 3.6 percent from the same quarter the previous year. The California Taxable Sales Deflator, which measures the rate of change of all taxable sales in the state, was up 5.0 percent. The increase in prices of taxable goods was greater than the 2.7 percent increase in the California Consumer Price Index, which measures price changes of both taxable goods and nontaxable goods and services.

Taxable sales made by retail stores accounted for 67.6 percent of total taxable sales in the third quarter of 2011, while nonretail outlets (all other outlets) comprised the remaining 32.4 percent. Taxable sales from

total retail and food services stores rose 8.7 percent, similar to that of nonretail outlets of 8.8 percent. Nonretail taxable sales include items such as business equipment and construction materials.

Taxable sales made by gasoline stations rose 20.1 percent. A 23.5 percent increase in gasoline prices was responsible for the growth in taxable sales made by gas stations; gas consumption decreased by 2.0 percent for the same period. Motor vehicle dealer sales increased by 11.1 percent, used vehicle sales edging ahead of new vehicles. Clothing and accessories store sales also increased, growing 10.1 percent over the same quarter last year. Sales at non-store retail (mainly mail order and Internet) grew 12.1 percent.

The rest of the major retail sectors (those shown in boldface type in Table 1) had taxable sales growth less than the overall average of 8.8 percent. Increases in these other retail sectors ranged from a low of 2.5 percent for general merchandise to a high of 8.1 percent for health and personal care.

# Sales omitted because their publication would result in the disclosure of confidential information. In Table 6, these are included with "Total Outlets, Taxable Transactions".

**FOOTNOTES**

a/ Per capita taxable sales were derived by dividing third quarter self-assessed taxable sales by the population estimates of the State Department of Finance for July 1. The populations used were 37,318,481 for 2010 and 37,578,616 for 2011.

b/ Some permittees, by the nature of their business, are not required to allocate local sales or use tax to specific local jurisdictions. Their taxable transactions are listed under the column headed "Unallocated" in Table 2. Contractors and manufacturers generate most of the countywide unallocable transactions through construction work and making installations of manufactured products in the various counties. Unallocated taxable sales are not reported in Tables 5 and 6.

**Notes concerning permits:**

A sales tax permit is required for each place of business operated by all manufacturers, wholesalers, and retailers of tangible personal property except those dealing solely in nontaxable commodities. Permits are tabulated twice a year: as of January 1 and July 1.
