AIRCRAFT JET FUEL DEALER TAX RETURN

Payments: You can make your payment by paper check, Online ACH Debit (ePay) or by credit card. To use ePay, go to our website at www.boe.ca.gov, click on the eServices tab and log in to make a payment. To pay by credit card, go to our website or call 800-272-9829. Mandatory EFT accounts must pay by EFT or ePay. **Be sure to sign and mail your return.**

GENERAL INFORMATION

Every dealer of aircraft jet fuel will use this tax return to pay the tax imposed on the sale of aircraft jet fuel to an aircraft jet fuel user or on the use of aircraft jet fuel by the dealer as an aircraft jet fuel user. **If you sell ex-tax aircraft jet fuel to another aircraft jet fuel dealer, obtain the aircraft jet fuel dealer account number from the purchaser. If you purchase aircraft jet fuel ex-tax from an aircraft jet fuel dealer, provide the dealer with your aircraft jet fuel account number.**

FILING REQUIREMENTS

If you are required to register as an aircraft jet fuel dealer, you must file an Aircraft Jet Fuel Dealer Return and supporting schedules with the Board of Equalization (BOE) on a monthly basis. The tax return and any remittance owing, which must be made payable to the State Controller, must be filed on or before the last day of the calendar month following the reporting period to which it relates. Paying your tax or filing your tax return after the due date will result in interest and penalty charges. You must file a tax return even if no tax is due for the reporting period. Your tax return is not considered valid unless it is signed and dated in the space provided at the bottom of the first page. **To prepare the tax return, you must first complete the applicable schedules. Please do not send in blank schedules.**

ACCOUNTABILITY

You must report all transactions that you are required to report in Section A and Section B of this tax return on the supporting schedules. The BOE will be comparing the information reported on your schedules with information provided by third parties. We will also be comparing your imports and exports of aircraft jet fuel against imports and exports reported to us by other states.

PREPARATION OF SCHEDULES

There are two types of supporting schedules included with every Aircraft Jet Fuel Dealer Tax Return: a Receipt Schedule and a Disbursement Schedule. For detailed information regarding preparation of schedules, see BOE-810-FTE, *Preparing Motor Vehicle Fuel Schedules and Diesel Fuel Schedules*, available on our website at www.boe.ca.gov/sptaxprog/pdf/boe810fte.pdf. Refer to the section titled "Completion of Schedules" for instructions for completing schedules and information regarding specific schedules.

Preparation of the Tax Computation Worksheet

The Tax Computation Worksheet is provided to assist you in calculating the tax due and completing your return. (This worksheet should be kept with your records. Do not send the worksheet with your return.) When completing the schedules, please remember that tax is due on total gallons sold, including partial gallons; therefore, the BOE suggests your round up or down to the nearest whole gallon to avoid reporting errors. Add the totals from column 11 and each of the schedules for all aircraft jet fuel to determine the total gallons to be included in the worksheet.

A. Taxable Transactions

- Line 1.** Enter the total gallons of taxable aircraft jet fuel sold by adding the totals from column 11 for each disbursement schedule code 5.
- Line 2.** Enter the total gallons of aircraft jet fuel used by you as an aircraft jet fuel user from column 11 for each disbursement schedule code 5Q.
- Line 3.** Enter the total gallons of aircraft jet fuel subject to tax during the reporting period by adding lines 1 and 2. Enter this total on line 1 on the front of the return.

B. Exemptions

- Line 1.** Enter the total gallons of aircraft jet fuel exported by adding column 11 for each disbursement schedule code 7.
- Line 2.** Enter the total gallons of aircraft jet fuel sold tax exempt to the United States Armed Forces by adding column 11 for each disbursement schedule code 8. Only sales to the Armed Forces of the United States for use in ships or aircraft or for use outside this state are tax exempt.
- Line 3.** Enter the total gallons of aircraft jet fuel sold tax exempt or used for purposes other than operating a jet aircraft by adding column 11 for each disbursement schedule code 10A.

- Line 4.** Enter the total gallons of aircraft jet fuel sold tax exempt to aircraft jet fuel dealers by adding column 11 for each disbursement schedule code 10B.
- Line 5.** Enter the total gallons of aircraft jet fuel sold tax exempt to aircraft manufacturers by adding column 11 for each disbursement schedule code 10G.
- Line 6.** Enter the total gallons of aircraft jet fuel sold tax exempt to air common carriers by adding column 11 for each disbursement schedule code 10K.
- Line 7.** Enter the total gallons of aircraft jet fuel sold tax exempt, exported, or used during the reporting period by adding lines 1 through 6 in Section B.

In addition to preparing the schedules above, you are required to report all imports of aircraft jet fuel, including bonded aircraft jet fuel, on schedule code 4 and all instate receipts on schedule code 2. Instate receipts include all gallons of aircraft jet fuel purchased, refined, or produced by you.

PREPARATION OF THE RETURN

Before completing the return, prepare the applicable Receipt Schedules, Disbursement Schedules, and Tax Computation Worksheet, Sections A and B. You must sign, date, and mail your return to the address shown on page 1 of your return, with full payment by the due date. Be sure to make a copy for your records.

- Line 1.** Enter the total gallons on which tax applies from Section A, line 3 of the Tax Computation Worksheet.
- Line 2.** This is the current rate of tax for aircraft jet fuel.
- Line 3.** Enter the amount of tax due by multiplying line 1 by line 2. You should round tax due to the nearest whole dollar.
- Line 4.** If you pay the tax due on line 3 or file your return after the due date shown on the front of this return, you owe a penalty of ten percent (0.10) of the amount of remaining tax due. Multiply the tax due on line 3 by (0.10) and enter here. Returns and payments must be postmarked or received on or before the due date of the return to be considered timely. If the due date falls on a Saturday, Sunday, or state holiday, returns postmarked or received on the next business day will be considered timely. Businesses required to pay aircraft jet fuel tax by electronic funds transfer (EFT) may also be subject to a 10 percent penalty for failure to pay by EFT (payment by check, for example.) However, 10 percent is the maximum penalty applied to late returns and payments.
- Line 5.** If you are paying the tax due on line 3 after the date shown on the front of this return, you will owe interest. The interest rate noted on the front of this return applies for each month, or fraction of a month, that your payment is late. For example, if your payment is one month and two weeks overdue, you owe two months' interest. Multiply the tax due on line 3 by the interest rate shown, then multiply the result by the number of months, including any fraction of a month, that has elapsed since the due date and enter here.
- Line 6.** Enter the total amount due and payable by adding lines 3, 4, and 5.

Inventory

- Line 1.** Enter ending physical inventory of aircraft jet fuel.
