Effective July 1, 2017, the tax rate you report and pay with your quarterly IFTA or DI tax return for diesel fuel purchased outside California and used in California will decrease from 40.0 cents (\$0.400) to 37.0 cents (\$0.370) per gallon.

This rate will be in effect until June 30, 2018. You should begin using this rate when you report and file your third quarter 2017 return.

You may claim a credit of 37.0 cents per gallon for tax-paid diesel fuel purchased in California on or after July 1, 2017, that you use both inside and outside California.

The 37.0 cents per gallon includes:

- 16.0 cents (\$0.160) per gallon of diesel fuel tax (adjusted annually, effective July 1 of each year); and
- an additional excise tax of 21.0 cents (\$0.210) per gallon (adjusted annually, effective July 1 of each year).
