TO COUNTY ASSESSORS:

SALARY SURVEY 1981-82

Here is our report of salaries in California assessment offices. All salaries are monthly and in effect October 1, 1981 unless otherwise noted. The number of positions in each class is indicated.

This report cannot show the reporting relationship within each assessor's office, but the number of positions within technical classes may indicate such relationships. From this indicator, and the name of the class, the reader may determine the administrative, supervisory, journeyman, or trainee levels.

Levels of Responsibility

Within each occupational group there are as many as three or four different levels below the administrative level, depending upon the organization of the assessor's office. The basic levels are:

1. Entry level: Employees in entry-level classes perform the routine, repetitive tasks, and may receive training in the more complex operations of the office. These positions require no particular previous experience. Appraiser positions may have the designation Junior Appraiser or Appraiser I.
2. Journeyman level: This level is the experienced, working-level group of job classes. Most positions in the various occupational groups are allocated to journeyman-level classifications. The work performed at this level involves the ability to independently make decisions in procedural matters and the performance of duties of average difficulty without immediate supervision. Positions allocated to classes at this level require previous general experience within the class. In many cases, employees who have completed one year in an entry-level class can expect to be eligible for promotion to a journeyman-level class. Journeyman-level classes generally carry a title which includes the Roman Numeral II. Appraiser positions may have the designation Assistant Appraiser or Appraiser II.
3. Specialist level: Classes at this level are distinguished by one or both of the following factors: (1) the work performed is of a

specialized nature requiring previous experience in a particular office, and (2) the assigned duties and responsibilities include exercising lead supervision over other employees. The performance of specialized work, not supervision, is the major work assignment. Appraiser positions may have the designation Associate Appraiser or Appraiser III.

4. Supervisory level: The primary responsibility of classes at this level is the supervision of a group of subordinates. Supervision, rather than the performance of specialized work, is the key feature of classes at this level. Titles at this level often contain the terms "Senior" or "Supervising."
5. Administrative level: Classes at this level plan, organize, direct, and supervise the activities of a department. Department management, rather than the supervision of subordinates or the performance of difficult technical work, distinguishes positions in these classes.

State of California Salaries

For comparison purposes, here are the monthly pay scales in California State Civil Service.

Administrators

Assistant Executive Secretary- Property Taxes	\$3,413-4,415
Chief of Operations	3,167-4,211
