INTRODUCTION

The purpose of this report is to supply data that are useful for comparing the operations of an assessor's office with those of other county assessors.¹ Possible uses for the data contained in this report are management/staff planning and budget development.

We would like to caution the reader to use care in comparing data contained in this report. Please keep in mind that the figures used are a combination of past and present. In other words, the 2010-11 assessment roll is based on workload experienced in an earlier assessment year. For example, income, expenses, budgeted positions, and workload reported all relate to the 2010-11 fiscal year. However, the 2010-11 roll was prepared in the 2009-10 fiscal year using budget and staff for that year.

These data were compiled by the Board's Property and Special Taxes Department, County-Assessed Properties Division, from responses to questionnaires sent to all assessors. Please note that the figures and totals in this report may be incomplete in that they represent a comparison of *furnished data only*. Fifty of the 58 counties reported data; Alpine, El Dorado, Glenn, Lake, Mendocino, Mono, Trinity and Tulare Counties did not provide data.

Any questions concerning this report should be directed to the County-Assessed Properties Division at 916-274-3350. Any questions concerning the data submitted by a particular county should be directed to that county.

¹ Several counties have combined the assessor's office with other county offices, such as the recorder and the clerk. For those offices with combined functions, the data requested and used represent only those related to the function of the assessor as furnished by them.
