No. 2011/009

February 1, 2011

TO COUNTY ASSESSORS AND INTERESTED PARTIES:

**REPRESENTATIVE PERIODS FOR THE 2011 TAX YEAR
FOR THE ASSESSMENT OF AIRCRAFT OPERATED BY
CERTIFICATED AIR CARRIERS AND SCHEDULED AIR TAXI OPERATORS**

Pursuant to the provisions of section 1153 of the Revenue and Taxation Code and Property Tax Rule 202,¹ the State Board of Equalization designates the following representative periods for use in assessing the aircraft of the captioned carriers as of January 1, 2011:

Scheduled Activity

For aircraft of a type which were controlled on 12:01 a.m. January 1, 2011 by the reporting carrier, the representative period for measuring the scheduled ground and flight time and the scheduled arrival and departure activities shall be a consecutive seven-day period as reflected in the schedules which begin and are in effect as of 12:01 a.m. on Sunday, January 9, 2011. The last part of the foregoing sentence is underlined to emphasize that the one-week schedule to be reported is the schedule in effect only at that specified date and time, regardless of any changes to the schedule that may be planned and/or implemented during the ensuing week. The seven-day representative period to be used for reporting purposes begins at 12:01 a.m. on Sunday, January 9, 2011, and ends at 12:00 a.m. (midnight) on Saturday, January 15, 2011. For cargo carriers, the representative period is the twelve-month period from January 1, 2010 through December 31, 2010.

Nonscheduled Activity

For aircraft of a type, which were controlled on 12:01 a.m. January 1, 2011 by the reporting carrier, the representative period for measuring the nonscheduled ground and flight time and nonscheduled arrival and departure activities shall be:

- (1) The twelve-month period from January 1, 2010 through December 31, 2010, if the aircraft was first used by the reporting carrier in revenue service on or before January 1, 2010, and was part of the carrier's fleet at both the beginning and the end of the period.
- (2) A period beginning with the carrier's first use of the aircraft in revenue service during the twelve-month period from January 1, 2010 through December 31, 2010, and ending with

¹ All references to Rules are Property Tax Rules from Title 18, Public Revenues, California Code of Regulations.

December 31, 2010, if that first use occurred between January 1, 2010 and November 1, 2010.

- (3) A period beginning with the carrier's first use of the aircraft in revenue service and ending 60 days thereafter, but not later than February 28, 2011 if that first use or control occurred after October 31, 2010. This paragraph is not applicable if the first control of the aircraft occurred after 12:01 a.m. January 1, 2011.
- (4) If, during any time within the periods specified in subparagraphs (1) through (3), the aircraft was not controlled by the reporting carrier, that time shall be excluded from the representative period for the aircraft.

A separate flight-and-ground-time factor and arrival-and-departure factor must be computed for each type of aircraft. The separate types for the 2011 lien date are designated below:

- (1) Helicopters–All
- (2) Piston-powered fixed wing–All
- (3) Turboprop-powered fixed wing. Each make and model designation is its own type. Due to the variety of aircraft that may be in use, it is not possible to list all types. Examples of separate types are:

BAe31	DHC-6	E-190/195	HS748	Metro V
BAe41	DHC-7	F-50	Metro	Metro 25
Beech B99	EMB-120	F-70	Metro II	Nord 262
Beech 1300	EMB-121	FH-227	Metro III	Shorts 360
Beech 1900	E-170/175	HP137	Metro IV	Shorts Skyvan

- (4) Turbojet and Turbofan-powered fixed wing. Each make and model aircraft is its own type. Examples of types are:

If for any reason it is necessary for a carrier to combine any types listed above or to report additional types, an explanation must be included with the property statement of every assessor to whom the carrier reports. The types must be reported uniformly to every such assessor. Air carriers must indicate on the property statement or an attachment to the property statement those certificated aircraft, which qualify for exemption pursuant to Property Tax Rule 138.

Enclosed are tables of standard flight times for jet aircraft. For interstate flights, use the times provided in tables. The standard flight times for intrastate flights are provided as a tool for assessors' use only. **When completing BOE-570-1-S, *Flight Detail Jet Engine Types Only*, (columns G and H), carriers are to report intrastate flight times as per flight schedule.**

If you have any questions, please contact Mr. Larry Gee of our Assessment Services Unit at 916-274-3357.

Sincerely,

/s/ David J. Gau
