Subject: BOE Cafeteria Kitchen Remediation

BOE CAFETERIA KITCHEN REMEDIATION - May 31, 2011 to mid-July 2011

Starting on May 31, 2011, the BOE Grab and Grill Cafeteria kitchen will close for remediation. Remediation is expected to be completed by early July and the grill and kitchen should re-open a few weeks thereafter. This is dependent upon how quickly the kitchen is restocked to resume operation. During this time, all grill items will be unavailable.

According to the vendor, the revised operating hours of service will be from 7:00 a.m. to 2:00 p.m. Cold-food service will be available in the main vending area of the cafeteria and coffee service will be available at the coffee bar near the public entrance at the N Street entrance to the HQ building. DGS estimates the cafeteria will be returned to full-service in mid-July 2011.

Additional food products will be provided for sale during the kitchen closure. Examples include frozen ready to microwave sandwiches, hamburgers, burritos and other sandwich-type frozen foods. Pre-packaged cold sandwiches will be available with an expanded selection to choose from.

We greatly appreciate your understanding and patience during this process.
