Subject: Building Update - Process Improvements Study Preliminary Final Report

Building Update - Process Improvements Study Preliminary Final Report

At the January 26, 2016 Board Meeting, a Power Point presentation entitled “Board of Equalization Process Improvements Study Preliminary Final Report” was presented to the State Board of Equalization (BOE) by consultants of the Department of General Services (DGS).

This presentation and preliminary final report are related to revenue generation at 450 N Street. The preliminary final report was released by DGS.

DGS contracted with an architecture and engineering firm, Hammel, Green and Abrahamson (HGA), to complete the preliminary final report and the Power Point presentation.

A copy of the Power Point presentation and preliminary final report are being posted on the BOE Building Assessment website at http://www.boe.ca.gov/info/building_update.html

Staff are welcome to review the presentation of the preliminary final report at the January 26, 2016 Board Meeting by viewing footage at <https://www.youtube.com/watch?v=JnNNzqG2IIQ>.

Viewers can go directly to the presentation by clicking “Show More,” and then click “8:50:20” next to the words “Facility Update.” This is the fourth item from the bottom.

Additionally, a recent article related to the preliminary final report was published in the Sacramento Bee. The article and the preliminary final report can be viewed at <http://www.sacbee.com/news/politics-government/the-state-worker/article56861658.html>.

Thank you.

Edna B. Murphy, MBA
Deputy Director, Administration Department
Board of Equalization
