**BILL SUMMARY**

This bill would provide a state (General Fund only) sales and use tax exemption for purchases of qualifying tangible personal property by persons engaged in manufacturing and software production, as specified and defined.

**ANALYSIS**

**CURRENT LAW**

Under current law, business entities engaged in manufacturing, research and development, and software producing activities that make purchases of equipment and supplies for use in the conduct of their manufacturing and related activities are required to pay tax on their purchases to the same extent as any other person either engaged in business in California or not so engaged. Current law does not provide special tax treatment for purchases of equipment used by these entities in their manufacturing and related activities.

The statewide sales and use tax rate (8.25%) imposed on taxable sales and purchases of tangible personal property is made up of the following components (additional transactions and use taxes (also known as district taxes) are levied by various local jurisdictions and are not reflected in this chart):

<b>Rate</b>	<b>Jurisdiction</b>	<b>Purpose/Authority</b>
5.00%	State (General Fund)	State general purposes (Revenue and Taxation Code (RTC) Sections 6051, 6051.3, 6201, and 6201.3)
1.00%	State (General Fund)	State general purposes (RTC Sections 6051.7 and 6201.7, operative 4/1/09 through 6/30/11)
0.25%	State (Fiscal Recovery Fund)	Repayment of the Economic Recovery Bonds (RTC Sections 6051.5 and 6201.5, operative 7/1/04)
0.50%	State (Local Revenue Fund)	Local governments to fund health and welfare programs (RTC Sections 6051.2 and 6201.2)
0.50%	State (Local Public Safety Fund)	Local governments to fund public safety services (Section 35, Article XIII, State Constitution)
1.00%	Local (City/County) 0.75% City and County 0.25% County	City and county general operations (RTC Section 7203.1, operative 7/1/04); Dedicated to county transportation purposes
8.25%	Total Statewide Rate

### PROPOSED LAW

This bill would add RTC Section 6377 to the Sales and Use Tax Law to provide a partial exemption (General Fund only) from the sales and use tax rate of 6% (5% on and after July 1, 2011) for the following purchases made by a “qualified person”:

- Tangible personal property to be used 50 percent or more in any stage of manufacturing, processing, refining, fabricating, or recycling of property (i.e., machinery, equipment belts, shafts, computers, software, pollution control equipment, buildings and foundations), as specified.
- Tangible personal property purchased for use by a contractor, as specified, for use in the performance of a construction contract for the qualified persons who will the property as an integral part of any manufacturing, processing, refining, fabricating, or recycling process or as a research or storage facility in connection with the manufacturing process.

The bill would define a “qualified person” as any person engaged in manufacturing activities, as described in the North American Industrial Classification System (NAICS) codes 3111 and 3399, and software production activities as described in NAICS codes 5112, or an affiliate of a qualified person, as defined.

“Fabricating,” “manufacturing,” “primarily,” “process,” “processing,” “refining,” “research and development,” are defined and the tangible personal property intended to be included or excluded from the proposed partial exemption are described.

The bill would specify that the proposed exemption would *not* include (1) any tangible personal property that is used primarily in administration, general management, or marketing, (2) consumables with a normal useful life of less than one year, except for fuels used or consumed in the manufacturing process, and (3) furniture, inventory, equipment used in the extraction process, or equipment used to store finished products that have completed the manufacturing process.

The proposed exemption shall not apply to any taxes levied pursuant to Sections 6501.2 and 6201.2 (Fiscal Recovery Fund), 6051.5 and 6201.5 (Local Revenue Fund), and pursuant to Section 35 of Article XIII of the California Constitution (Local Public Safety Fund). In addition, the bill would specify that the exemption shall not apply to any tax levied by a county, city, or district pursuant to the Bradley-Burns Uniform Local Sales and Use Tax Law or the Transactions and Use Tax Law (also known as district taxes).

As a tax levy, the bill would become effective immediately, but would become operative on January 1, 2011.

### BACKGROUND

For a ten-year period ending December 31, 2003, the law provided a partial (General Fund only) sales and use tax exemption for purchases of equipment and machinery by new manufacturers, and income and corporation tax credits for existing manufacturers' investments (MIC) in equipment. Manufacturers were defined in terms of specific federal “Standard Industrial Classification” (SIC) codes. The exemption provided a state tax portion for sales and purchases of qualifying property, and the income tax credit was equal to 6% of the amount paid for qualified property placed in service in California. Qualified property was similar to the property described in this bill –depreciable equipment used primarily for manufacturing, refining, processing, fabricating or recycling; for maintenance, repair, measurement or testing of qualified property; and for

*This staff analysis is provided to address various administrative, cost, revenue and policy issues; it is not to be construed to reflect or suggest the Board's formal position.*

pollution control meeting state or federal standards. Qualified property also included tangible personal property purchased by a contractor, as specified, for use in the performance of a construction contract for the qualified person who would use that property as an integral part of the manufacturing process, as described. Certain special purpose buildings were included as "qualified property," as this bill proposes. New manufacturers could either receive the benefit of the exemption, or claim the income tax credit. However, existing manufacturers could only receive the benefit of the income tax credit.

This sales and use tax exemption and income tax credit had a conditional sunset date. They were to sunset in any year following a year when manufacturing employment (as determined by the Employment Development Department) did not exceed January 1, 1994 manufacturing employment by more than 100,000. On January 1, 2003, manufacturing employment (less aerospace) did not exceed the 1994 employment number by more than 100,000 (it was less than the 1994 number by over 10,000), and therefore the MIC and partial sales tax exemption sunsetted at the end of 2003.

Since the expiration of the partial exemption of manufacturing equipment, numerous bills have been introduced to either reinstate or to expand or modify the exemption, but failed to pass. A sample of bills introduced during the last two Legislative Sessions include the following:

Bill No.	Session	Author	Proposed Exemption
AB 1152	2007-08	Niello	Qualifying tangible personal property by persons engaged in manufacturing and software production
AB 1206	2007-08	Smyth	Machinery and equipment used in research and development activities
AB 1681	2007-08	Houston	Qualified tangible personal property for use by qualified persons engaged in manufacturing, telecommunications, and electrical generation activities
AB 344	2005-06	Villines	Qualifying tangible personal property by qualified persons primarily engaged in manufacturing, telecommunications and electrical generation activities. Would apply to 25% of the sales or purchases for 2006, 50% for 2007, and 100% thereafter.
AB 1580	2005-06	Torrice	Qualifying tangible personal property by qualified persons primarily engaged manufacturing, construction contracting, software production, telecommunications, cable distribution, scientific research and development services, and wholesale distribution of recyclable materials
SB 552	2005-06	Alquist	Materials, supplies, machinery and equipment used by entities engaged in manufacturing, research and development, telecommunications, software production, and printing, and for semiconductor, biotechnology and pharmaceuticals clean rooms and equipment. Includes optional Bradley-Burns local and district tax exemption
SB 1291	2005-06	Alquist	Materials, supplies, machinery and equipment used by entities engaged in manufacturing, research and development, software production, and newspaper printing, and for semiconductor, biotechnology and pharmaceutical clean rooms and equipment

SB 71 (Ch. 10, Padilla) was signed by the Governor on March 24, 2010, and expands the range of projects which may be approved for a sales and use tax exclusion to include equipment used to manufacture products that produce energy from alternative sources such as solar, wind, and biomass. This bill allows the California Alternative Energy and Advanced Transportation Financing Authority (CAEATFA) to authorize a state and local sales and use tax exclusion for tangible personal property utilized for the design, manufacture, production, or assembly of advanced transportation technologies or alternative source products, components, or systems. This sales and use tax exclusion will sunset on January 1, 2021.

## COMMENTS

1. **Sponsor and purpose.** The author is sponsoring this bill in an effort to stimulate job growth in California's manufacturing industry. According to the author's office, "California's manufacturing jobs base has experienced a consistent downward trend in the previous decade. Decreasing the cost of new capital equipment through a sales tax exemption, will give employers an incentive to buy new equipment, so they can compete in the 21<sup>st</sup> century economy."
2. **What types of entities do Codes 3111 to 3399 and 5112 include?** Codes 3111 to 3399 include all establishments primarily engaged in manufacturing activities, including the aerospace sector, textiles, pharmaceuticals, printing, food, and more.

Code 5112 is comprised of establishments primarily engaged in computer software publishing or publishing and reproduction. Software publishing establishments carry out the functions necessary for producing and distributing computer software, such as designing, providing documentation, assisting in installation, and providing support services to software purchasers. The software publishing industry produces and distributes information, but usually it "publishes" or distributes its information by methods, such as by CD-ROM's, the sale of new computers already preloaded with software, or through distribution over the Internet, rather than in printed form.

### 3. **Administrative and technical concerns:**

- In defining "qualified person," it is recommended that the bill require that the qualifying entity be *primarily* engaged in the activities described in the referenced codes. This is an important issue and one that generated many disputes when the Board administered Section 6377 previously.
- Another issue relates to the proposed definitions for the types of property included and excluded from the proposed exemption. For example, on page 4, lines 14 and 30, the bill refers to the items having a *useful life* of one year or more (or less than one year). In order to lessen potential audit disputes, the bill should contain some mechanism for determining the useful life. Perhaps some reference to the provision in the California income tax laws for depreciating assets should be incorporated into the bill.
- Subdivision (g) of proposed Section 6377 (see page 5, line 33) provides for an exemption from tax for specified leases of qualified property and limits this exemption for a six-year period. This limitation is modeled after a provision in former Section 6377 that provided a state tax exemption solely to new manufacturers' leases of equipment. Since this bill would provide the exemption for all qualifying persons, it appears the limitation in subdivision (g) is unnecessary and should be stricken. Otherwise, long-term leases of qualifying

property would not enjoy the same tax privileges that the bill would provide to actual purchases of the same property.

Board staff is available to work with the author's office to address these and other concerns that may be identified.

4. **Related Legislation.** Last year's AB 829 (Caballero) and SB 699 (Alquist) contained similar provisions that would have provided a partial sales and use tax exemption, beginning on January 1, 2013, on tangible personal property, including sustainable development equipment investments purchased by persons engaged in manufacturing, research and development, software publishing, and their affiliates, as specified. AB 829 died in the Assembly Appropriations Committee, while SB 699 died in the Senate Revenue and Taxation Committee.

Similar bills have been introduced this year:

- AB 810 (Caballero) is very similar to last year's AB 829 (Caballero).
- AB 1719 (Harkey) would provide a partial sales and use tax exemption (General Fund only) for purchases of qualifying tangible personal property by new trades or businesses engaged in manufacturing, as specified.
- AB 2280 (Miller) would provide a sales and use tax exemption on equipment purchased by any manufacturer for use in its manufacturing business in California.
- AB 2640 (Arambula) would provide a partial sales and use tax exemption (General Fund only) for purchases of depreciable manufacturing equipment purchased by a qualified purchaser, as defined, with a total claimed exemption cap of \$450 million annually.
- SB 1053 (Runner) and SBx6 8 and SBx8 44 (Dutton) would provide a partial sales and use tax exemption (General Fund only) for tangible personal property used in manufacturing and qualified research and development activities by manufacturers and software publishers and affiliates, as specified.

#### **COST ESTIMATE**

The Board would incur costs to administer this measure. These costs would be attributable to, among other things, identifying and notifying qualifying entities, auditing claimed amounts, revising sales tax returns, reviewing returns with claimed exemptions, and programming. An estimate of these costs is pending.

**REVENUE ESTIMATE**

**BACKGROUND, METHODOLOGY, AND ASSUMPTIONS**

The 2008 Annual Survey of Manufactures, a Census publication, reported manufacturing expenditures or purchases for California; the amount subject to the proposed exemption was \$22 billion. The following is a breakdown of expenditures:

Capital Expenditures NAICS 3111 to 3399 – California Estimate 2008  
(in billions)

Capital Expenditures <sup>1</sup> Structure (new & used)	Capital Expenditures Machine & Equipment (new & used)	Purchased Fuels	Total Expenditures
\$1.6	\$15.6	\$4.8	\$22

We estimate total expenditures subject to the proposed exemption to be \$19.6 billion in 2011 and \$20.4 billion in 2012.

**NAICS 5112 (Software Publishers)**

The 2008 Annual Capital Expenditures Survey, a Census publication, reported structures and equipment expenditures for the United States (U.S.); to estimate expenditures for California, we used the 12% population ratio of California to the U.S. The amount subject to the proposed exemption was \$0.7 billion. The following is a breakdown of expenditures:

Capital Expenditures NAICS 5112 – California Estimate 2008  
(in billions)

	Capital Expenditures Structure (new & used)	Capital Expenditures Machine & Equipment (new & used)	Total Expenditures
U.S	2.6	4	
	× 12%	× 12%	
California	0.2 <sup>2</sup>	0.5	0.7

We estimate total expenditures subject to the proposed exemption to be \$0.7 billion in 2011 and \$0.7 billion in 2012.

<sup>1</sup> Building and other structures expenditure was \$3.2 billion. We assume that about half of the expenditures would amount to labor chargers for installation that is exempt.

<sup>2</sup> We assumed that about half of the structure expenditures would amount to labor chargers for installation that is exempt.

**Estimated Total Capital Expenditures (NAICS 3111 to 3399 + NAICS 5112)**

2011: \$20.3 billion

2012: \$21.1 billion

**REVENUE SUMMARY**

This bill provides a state sales and use tax exemption (General Fund only). Effective April 1, 2009, the state sales and use tax rate was increased by 1%, from 5% to 6%. The 1% sales and use tax rate increase will expire on June 30, 2011; consequently, the state sales and use tax rate will revert to 5%. With this tax rate change in 2011 and given that this proposal would begin on or after January 1, 2011, the following analyzes the exemption’s impact:

FY 2010-11 (January through June 2011)

- The revenue loss from exempting tangible personal property purchased by manufacturers and software publishers from the state sales and use tax (6%) amounts to \$0.6 billion ( $(\$20.3 \text{ billion} \times 6\%) \times 50\% = \$0.6 \text{ billion}$ ).

FY 2011-12

- The revenue loss from exempting tangible personal property purchased by manufacturers and software publishers from the state sales and use tax (5%) amounts to \$1.1 billion ( $\$21.1 \text{ billion} \times 5\% = \$1.1 \text{ billion}$ ).
