Agenda Item No: 4**Title: Proposed Amendments to Regulation 1591, *Medicines and Medical Devices*****Issue:**

Whether the Board should amend Sales and Use Tax Regulation 1591, *Medicines and Medical Devices*, to clarify that the definition of “medicines” includes devices implanted to mark the location of a medical condition.

Committee Discussion:

Staff introduced the amendments to Regulation 1591 explaining the four action items included one area of agreement and three areas where alternative language was suggested by interested parties. Mr. Wade Downey of Downey, Smith & Fier thanked staff for the language regarding the breast tissue markers and clarification of FDA approval. He stated his goal throughout this process was to clarify subdivisions (a)(9)(A) and (c)(2) as they relate to fully implanted items. Mr. Roderick Calub of Downey, Smith & Fier requested the Board adopt language to include in the definition of medicines fully implanted devices that are FDA approved but do not assist the functioning of the human body. Mr. Jacob Bholat of Equity Recovery Solutions, Inc., also thanked staff for addressing the complex and difficult process of dealing with medicines. However, citing four examples where the Board has allowed a broader interpretation of the definition, he believes staff has continued to apply a narrow interpretation.

Staff continued the discussion by stating that the existing language in subdivision (c)(2) is taken directly from statute.

Questions involving port-a-caths were brought up by Board Members. Staff clarified that their recommendation to remove a sentence in subdivision (b)(2) was done so that articles listed in the subdivision may qualify as a medicine under a different section. Staff also explained the use of port-a-caths in the revenue estimate was appropriate as the language proposed for both

alternatives to staff's recommendation would allow the port-a-caths to be exempt under subdivision (a)(9)(A).

Ms. Yee stated that the intent of the regulation was to define medicines and not to provide an exhaustive list of devices. She added that staff's recommendations helped provide a good road map to clarify what constitutes a medicine. Mr. Runner expressed his concern that we may be missing the opportunity to create greater clarification and staff's recommended amendments may not reduce future appeals cases. Mr. Horton stated the statute was clear and suggested the audit staff could be provided additional guidance in the audit manual.

A consensus was reached amongst Board Members, staff, and the interested parties in attendance regarding staff's recommendations for action items 1 through 3. It was further discussed that no action should be taken on item 4. It was also suggested that the audit manual could be updated to provide guidance to staff on the application of Regulation 1591 and the interrelationship of subdivisions (a), (b), and (c) defining medicines.

Committee Action/Direction:

Upon motion by Ms. Yee, seconded by Mr. Runner, without objection, the Committee approved and authorized publication of staff's recommended amendments with respect to Action Items 1, 2 and 3. The committee further directed staff to provide guidance in the audit manual on the application of Regulation 1591 and the interrelationship of subdivisions (a), (b), and (c) defining medicines. No action was taken on Item 4.

A copy of the proposed amendments to Regulation 1591 is attached.

Sales and Use Tax Regulation 1533.2. *Diesel Fuel Used in Farming Activities or Food Processing.*

(a) General. Commencing on and after September 1, 2001, section 6357.1 of the Revenue and Taxation Code partially exempts from sales and use tax the sale of, and the storage, use, or other consumption in this state, of diesel fuel used in farming activities or food processing. The terms “farming activities” and “food processing” are defined below.

For the period commencing on September 1, 2001, and ending on December 31, 2001, the partial exemption applies to the taxes imposed by sections 6051 and 6201 of the Revenue and Taxation Code (4.75%), but does not apply to the taxes imposed pursuant to sections 6051.2 and 6201.2 of the Revenue and Taxation Code, the Bradley-Burns Uniform Local Sales and Use Tax Law, the Transactions and Use Tax Law, or section 35 of article XIII of the California Constitution.

For the period commencing on January 1, 2002, and ending on June 30, 2004, the partial exemption applies to the taxes imposed by sections 6051, 6051.3, 6201, and 6201.3 of the Revenue and Taxation Code (5%), but does not apply to the taxes imposed pursuant to sections 6051.2 and 6201.2 of the Revenue and Taxation Code, the Bradley-Burns Uniform Local Sales and Use Tax Law, the Transactions and Use Tax Law, or section 35 of article XIII of the California Constitution.

For the period commencing on July 1, 2004, and ending on March 31, 2009, the partial exemption applies to the taxes imposed by sections 6051, 6051.3, 6051.5, 6201, 6201.3, and 6201.5 of the Revenue and Taxation Code (5.25%), but does not apply to the taxes imposed or administered pursuant to sections 6051.2 and 6201.2 of the Revenue and Taxation Code, the Bradley-Burns Uniform Local Sales and Use Tax Law, the Transactions and Use Tax Law, or section 35 of article XIII of the California Constitution.

For the period commencing on April 1, 2009, and ending on June 30, 2011, the partial exemption applies to the taxes imposed by sections 6051, 6051.3, 6051.5, 6051.7, 6201, 6201.3, 6201.5, and 6201.7 of the Revenue and Taxation Code (6.25%), but does not apply to the taxes imposed or administered pursuant to sections 6051.2 and 6201.2 of the Revenue and Taxation Code, the Bradley-Burns Uniform Local Sales and Use Tax Law, the Transactions and Use Tax Law, or section 35 of article XIII of the California Constitution.

For the period commencing on July 1, 2011, and ending on December 31, 2012, the partial exemption applies to the taxes imposed by sections 6051, 6051.3, 6051.5, 6051.8, 6201, 6201.3, 6201.5, and 6201.8 of the Revenue and Taxation Code, but does not apply to the taxes imposed or administered pursuant to sections 6051.2 and 6201.2 of the Revenue and Taxation Code, the Bradley-Burns Uniform Local Sales and Use Tax Law, the Transactions and Use Tax Law, or section 35 of article XIII of the California Constitution.

For the period commencing on January 1, 2013, the partial exemption applies to the taxes imposed by section 36 of article XIII of the California Constitution and sections 6051, 6051.3, 6051.5, 6051.8, 6201, 6201.3, 6201.5, and 6201.8 of the Revenue and Taxation Code, but does not apply to the taxes imposed or administered pursuant to sections 6051.2 and 6201.2 of the Revenue and Taxation Code, the Bradley-Burns Uniform Local Sales and Use Tax Law, the Transactions and Use Tax Law, or section 35 of article XIII of the California Constitution.

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

Given the varying rates of the taxes imposed by sections 6051.8 and 6201.8, the partial exemption applies to the following cumulative sales and use tax rates:

- (1) 7.12 percent for the period July 1, 2011, through June 30, 2012;
- (2) 7.42 percent for the period July 1, 2012, through December 31, 2012;
- (3) 7.67 percent for the period January 1, 2013 through June 30, 2013;
- (4) 7.44 percent for the period July 1, 2013, through June 30, 2014; and
- (5) 7.25 percent on or after July 1, 2014.

(b) Definitions. For purposes of this regulation:

(1) "Farming activities" mean a trade or business involving the cultivation of land or the raising or harvesting of any agricultural or horticultural commodity that may be legally sold to or offered for sale to others. These include the trade or business of operating a nursery or sod farm; the raising or harvesting of trees bearing fruit or nuts, or of other crops (e.g., grains, vegetables, or cotton); the raising of ornamental trees (other than evergreen trees that are more than six years old at the time they are severed from their roots); and the raising, shearing, feeding, caring for, training, and management of animals. The raising of animals includes the delivery of feed to the animal feeding operation, whether by the owner or the supplier of the feed. Operating a garden plot, orchard, or farm for the purpose of growing plants or animals for a person's own use shall not be considered a farming activity. Harvesting involves the gathering of any agricultural or horticultural commodity and includes activities such as crop drying, cotton ginning, and fruit ripening. Harvesting an agricultural commodity also includes the washing of the agricultural commodity, the inspection and grading of the agricultural commodity or livestock, and the packaging of the agricultural commodity for shipment as well as those activities delineated in Codes 0723 and 0724 of the Standard Industrial Classification Manual published by the United States Office of Management and Budget, 1987 edition (hereafter SIC Manual). For purposes of this regulation, merely buying and reselling plants or animals grown or raised entirely by another is not raising an agricultural or horticultural commodity. A person is engaged in raising a plant or animal, rather than the mere selling of a plant or animal, if the plant or animal is held for further cultivation and development prior to sale. In determining whether a plant or animal is held for further cultivation and development prior to sale, consideration will be given to all of the facts and circumstances, including: the value added by a person to the plant or animal through agricultural or horticultural processes; the length of time between the person's acquisition of the plant or animal and the time that the person makes the plant or animal available for sale; and in the case of a plant, whether the plant is kept in the container in which purchased, replanted in the ground, or replanted in a series of larger containers as it is grown to a larger size.

Farming activities also include the transportation and delivery of the agricultural or horticultural commodity, as described herein, from the trade or business that cultivated, raised or harvested the commodity to the marketplace, as described in subdivision (b)(5), and any empty haul related to the transportation of that agricultural or horticultural commodity.

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

Farming activities do not include food processing or transportation and delivery of processed food products to the marketplace.

Example A: A commercial hauler travels from its company yard to Grower A's field to pick up a load of tomatoes. The tomatoes are hauled to a processing plant. The hauler returns to the field with empty trailers. The sale of diesel fuel to the commercial hauler for use in this activity is partially exempt from tax.

Example B: A commercial hauler travels from its company yard to Grower A's field to pick up a load of fresh bell peppers. The bell peppers are sold to a grocery store and are delivered to the grocery store's distribution center. At the distribution center, the hauler picks up a load of pallets to deliver to another customer. The sale of diesel fuel to the commercial hauler for use from the yard to the field and from the field to the grocery store's distribution center is partially exempt from tax. The sale of diesel fuel to the commercial hauler for use in delivering the pallets is not partially exempt from tax.

Example C: A nursery owner transports its horticultural products to a distribution center. After delivering the product, the nursery owner makes two stops. The first stop is to pick up fertilizer for use at the nursery. The second stop is personal business unrelated to the nursery operation. The sale of diesel fuel to the nursery owner for use in this example is partially exempt from tax up to and including the first stop.

(2) "Plants" mean an agricultural or horticultural commodity produced in a farming activity which includes, but is not limited to, trees bearing fruit or nuts, other crops, an ornamental tree, a vine, a bush, or sod. Sea plants are produced in a farming activity if they are tended and cultivated as opposed to merely harvested.

(3) "Animals" mean a life form produced in a farming activity which includes, but is not limited to, any livestock, poultry or other bird, and fish or other sea life. Fish and other sea life are produced in a farming activity if they are raised on a fish farm. A fish farm is an area where fish or other sea life are grown or raised as opposed to merely caught or harvested.

(4) "Food processing" means the activities described in Industry Groups 201, 202, 203, 204, and 207, or Codes 2068 and 2084 of the SIC Manual. Food processing activities also includes transporting raw product, supplies and materials to the processing facility, transporting partially processed food products between various divisions of the same food processing entity for further processing operations, and any empty hauls related to the transportation of that product. Food processing does not include transportation and delivery of processed food products to the marketplace. A food processor is not required to be engaged 50 percent or more of the time in such activities as described herein.

Example A: A for-hire carrier, contracted for by a cheese plant, transports unprocessed milk from a dairy farm to the cheese plant for processing and then returns to the carrier's truck yard. The diesel used in this example is eligible for the partial sales tax exemption.

Example B: A flour mill transports flour sacks from a bag manufacturer to the mill's facility, and then transports those sacks to other flour mills owned by the same entity. The diesel used to transport the sacks in this example is eligible for the partial sales tax exemption, but the transportation of flour is not.

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

Example C: Cannery A and Cannery B are different divisions of the same food processing entity. Cannery A processes unprocessed tomatoes into tomato paste and then transports the paste to Cannery B for further processing. Cannery B processes the paste into tomato soup which is then transported to a grocery distribution warehouse. From the distribution warehouse the processed product is transported by the buyer to individual grocery stores and other distribution warehouses. Only the movement of paste from Cannery A to Cannery B is eligible for the partial sales tax exemption. The subsequent movement of product to the first distribution center and to retail stores and other warehouses is not eligible for the exemption.

(5) "Marketplace" means the place where a commodity is sold for resale, at retail or for consumption at an animal feeding operation, notwithstanding any intervening activities to prepare the product for sale in the marketplace. Such preparation activities include, but are not limited to, cooling, sorting, inspection, grading, drying, packing, handling, washing, slaughtering and butchering (except as otherwise described in Codes 2011 and 2015 of the SIC Manual), candling, sterilizing, freezing, pasteurizing, homogenizing, and packaging. Producers of agricultural or horticultural products may prepare and market their products through a cooperative, joint venture, corporation or partnership in which they have a financial interest, or other such enterprises, and the diesel used in these enterprises to transport products to the marketplace is eligible for the sales tax exemption.

(6) "Diesel fuel" means, for purposes of this regulation only, any liquid fuel that is commonly or commercially known; or sold or represented as a diesel fuel that is suitable for use in a diesel-powered highway vehicle. A liquid meets this requirement if, without further processing or blending, the liquid has practical and commercial fitness for use in the engine of a diesel-powered highway vehicle.

However, a liquid does not possess this practical and commercial fitness solely by reason of its possible or rare use as a fuel in the engine of a diesel-powered vehicle.

~~No. 1 D or No. 2 D, pursuant to the specifications in American Society for Testing and Materials Standard Specification for Diesel Fuel Oils ("ASTM") D 975-81, which is incorporated herein by reference. Diesel fuel, for purposes of this regulation only, also includes Environmental Protection Agency rated diesel fuel commonly known as "federal fuel" sold for use in locomotives, or which is used in generators, pumps, dehydrators and any other equipment used in the conduct of farming and food processing activities.~~

~~"Diesel fuel" does not include gasoline, kerosene, liquefied petroleum gas, natural gas in liquid or gaseous form, or alcohol, aviation fuel, except diesel fuel sold for use in aircraft designed for agricultural aerial applications that meets the specifications of ASTM D 1655, jet fuel, bunker fuel, or other like substance used as a fuel. Qualifying diesel fuel shall be identified accordingly on the invoice of sale.~~

(7) "Qualified activity" means farming activities as defined in subdivision (b)(1) or food processing, as defined in subdivision (b)(4).

(c) Partial Exemption Certificates.

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

(1) In General. A person who purchases diesel fuel for use in a qualified activity from an in-state retailer, or an out-of state retailer obligated to collect use tax, must provide the retailer with a partial exemption certificate in order for the retailer to claim the partial exemption. If the retailer takes a partial exemption certificate timely and in good faith, as defined in subdivision (c)(5), from a person who purchases diesel fuel for use in a qualified activity, the partial exemption certificate relieves the retailer from the liability for the sales tax subject to partial exemption under this regulation or the duty of collecting the use tax subject to partial exemption under this regulation. A partial exemption certificate will be considered timely if it is taken any time before the retailer bills the purchaser for the diesel fuel, any time within the retailer's normal billing or payment cycle, any time at or prior to delivery of the diesel fuel to the purchaser, or no later than 15 days after the date of purchase. A partial exemption certificate which is not taken timely will not relieve the retailer of the liability for tax excluded by the partial exemption; however the retailer may present satisfactory evidence to the Board that the retailer sold the diesel fuel to a person that used it in a qualified activity. A partial exemption from the sales and use tax under this part shall not be allowed unless the retailer claims the partial exemption on its sales and use tax return for the reporting period during which the transaction subject to the partial exemption occurred. Where the retailer fails to claim the partial exemption as set forth above, the retailer may file a claim for refund as set forth in subdivision (e).

The partial exemption certificate form set forth in Appendix A may be used to claim the partial exemption.

(2) Blanket Partial Exemption Certificates. In lieu of requiring a partial exemption certificate for each transaction, a person who purchases diesel fuel for use in a qualified activity may issue a blanket partial exemption certificate. The partial exemption certificate form set forth in Appendix A may be used as a blanket partial exemption certificate. Appendix A may also be used as a specific partial exemption certificate if the purchaser provides the purchase order or sales invoice number and a precise description of the property being purchased. A person who purchases diesel fuel for use in a qualified activity must include in the partial exemption certificate how much or what percentage of the diesel fuel purchased will be used in a qualified activity. If purchasing diesel fuel not qualifying for the partial exemption, the purchaser must clearly state in documents such as a written purchase order, sales agreement, or contract that the sale or purchase is not subject to the blanket partial exemption certificate.

(3) Form of Partial Exemption Certificate. Any document, such as a letter or purchase order, timely provided by the purchaser to the seller will be regarded as a partial exemption certificate with respect to the sale or purchase of diesel fuel if it contains all of the following essential elements:

(A) The signature of the purchaser, purchaser's employee, or authorized representative of the purchaser.

(B) The name, address and telephone number of the purchaser.

(C) The number of the seller's permit held by the purchaser. If the purchaser is not required to hold a permit because the purchaser sells only property of a kind the retail

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

sale of which is not taxable, e.g., food products for human consumption, or because the purchaser makes no sales in this state, the purchaser must include on the certificate a sufficient explanation as to the reason the purchaser is not required to hold a California seller's permit in lieu of a seller's permit number.

(D) A statement of how much or what percentage of the diesel fuel purchased will be used in a qualified farming or food processing activity.

(E) Date of execution of document.

(4) Retention and Availability of Partial Exemption Certificates. A retailer must retain each partial exemption certificate received from a person who purchases diesel fuel for use in a qualified activity for a period of not less than four years from the date on which the retailer claims a partial exemption based on the partial exemption certificate.

While the Board will not normally require the filing of the partial exemption certificate with a sales and use tax return, when necessary for the efficient administration of the Sales and Use Tax Law, the Board may, on 30 days' written notice, require a retailer to commence filing with its sales and use tax returns copies of all partial exemption certificates. The Board may also require, within 45 days of the Board's request, retailers provide the Board access to any and all partial exemption certificates, or copies thereof, accepted for the purposes of supporting the partial exemption.

(5) Good Faith. A seller will be presumed to have taken a partial exemption certificate in good faith in the absence of evidence to the contrary. A seller, without knowledge to the contrary, may accept a partial exemption certificate in good faith where the purchaser states that a certain percentage of the diesel fuel purchased will be used in farming activities or food processing. However, a partial exemption certificate cannot be accepted in good faith where the seller has knowledge that the diesel fuel is not subject to a partial exemption, or will not be otherwise used in a partially exempt manner.

(d) Partial Exemption Certificate for Use Tax. The partial exemption certificate must be completed by a person who purchases diesel fuel for use in a qualified activity to claim a partial exemption from use tax from an out-of-state retailer not obligated to collect the use tax. A partial exemption from the use tax shall not be allowed unless the purchaser or retailer claims the partial exemption on its individual use tax return, sales and use tax return, or consumer use tax return for the reporting period during which the transaction subject to the partial exemption occurred. Where the purchaser or retailer fails to claim the partial exemption as set forth above, the purchaser or retailer may file a claim for refund as set forth in subdivision (e).

The purchaser who files an individual use tax return must attach a completed partial exemption certificate to the return. The purchaser who is registered with the Board as a retailer or consumer and files a sales and use tax return or consumer use tax return must, within 45 days of the Board's request, provide the Board access to any and all documents that support the claimed partial exemption.

The partial exemption certificate form set forth in Appendix A may be used to claim the partial exemption.

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

(e) Refund of Partial Exemption.

(1) For the period commencing on September 1, 2001, and ending on April 30, 2002, a person who purchases diesel fuel for use in a qualified activity may claim the partial exemption on qualified purchases from an in-state retailer or an out-of-state retailer obligated to collect the use tax by furnishing the retailer with a partial exemption certificate on or before July 31, 2002. The retailer must refund the tax or tax reimbursement directly to a purchaser of diesel fuel for use in a qualified activity or, at the purchaser's sole option, the purchaser may be credited with such amount.

(2) A retailer who paid sales tax on a qualified sale or a person who paid use tax on a qualified purchase and who failed to claim the partial exemption as provided by this regulation may file a claim for refund equal to the amount of the partial exemption that he or she could have claimed pursuant to this regulation. The procedure for filing a claim shall be the same as for other claims for refund filed pursuant to Revenue and Taxation Code section 6901. For transactions subject to use tax, a person who purchases diesel fuel for use in a qualified activity filing a claim for refund of the partial exemption has the burden of establishing that he or she was entitled to claim the partial exemption with respect to the amount of refund claimed under this part. For transactions subject to sales tax, a person filing a claim for refund of the partial exemption has the burden of establishing that the purchaser of the diesel fuel otherwise met all the requirements of a person who purchases diesel fuel for use in a qualified activity at the time of the purchase subject to the refund claimed under this part.

(f) Improper Use of Partial Exemption. Notwithstanding subdivision (a), tax applies to any sale of, and the storage, use, or other consumption in this state of diesel fuel that is used in a manner not qualifying for the partial exemption under this regulation.

(g) Purchaser's Liability for the Payment of Sales Tax.

(1) If a purchaser timely submits a copy of a partial exemption certificate to the retailer or partial exemption certificate for use tax to the Board, and then uses the diesel fuel in a manner not qualifying for the partial exemption, the purchaser shall be liable for payment of the sales tax, with applicable interest, to the same extent as if the purchaser were a retailer making a retail sale of the diesel fuel at the time the diesel fuel was so removed, converted, or used.

(2) A purchaser providing a partial exemption certificate accepted in good faith by the retailer or a partial exemption certificate for use tax to the Board for diesel fuel that does not qualify for the partial exemption is liable for payment of the sales tax, with applicable interest, to the same extent as if the purchaser were a retailer making a retail sale of the diesel fuel at the time the diesel fuel was purchased.

(h) Records. Adequate and complete records must be maintained by the person who purchases diesel fuel for use in a qualified activity as evidence that the diesel fuel purchased was used in a qualified activity.

(i) Operative Date. This regulation is operative as of September 1, 2001.

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

Sales and Use Tax Regulation 1598.1. Diesel Fuel Prepayment Exemption.

(a) Definitions.

- (1) "Bulk deliveries" mean transfers of diesel fuel into storage tanks holding 500 gallons or more.
- (2) "Cardlock, keylock, or other unattended mechanism" means an unattended, completely automated fueling station at which a purchaser obtains diesel fuel through use of a coded card or key and an access code. Charges for sales of diesel fuel to customers are usually consolidated at a central location and periodically invoiced to the purchaser.
- (3) A "diesel fuel consumer" or "diesel fuel consumers" mean a person or persons that use diesel fuel in a manner that qualifies for the partial sales and use tax exemption set forth in Revenue and Taxation Code section 6357.1 and Regulation 1533.2, Diesel Fuel Used in Farming Activities or Food Processing.
- (4) "Diesel fuel," for purposes of the imposition of the prepayment of sales tax, is defined in Revenue and Taxation Code section 6480(c) (by reference to Revenue and Taxation Code section 60022) and means any liquid that is commonly or commercially known or sold as a fuel that is suitable for use in a diesel-powered highway vehicle. A liquid meets this requirement if, without further processing or blending, the liquid has practical and commercial fitness for use in the engine of a diesel-powered highway vehicle. However, a liquid does not possess this practical and commercial fitness solely by reason of its possible or rare use as a fuel in the engine of a diesel-powered highway vehicle.

Diesel fuel does not include gasoline, kerosene, liquefied petroleum gas, natural gas in liquid or gaseous form, or alcohol.

~~Diesel fuel does not include the water in a diesel fuel and water emulsion of two immiscible liquids of diesel fuel and water, which emulsion contains an additive that causes the water droplets to remain suspended within the diesel fuel, provided the diesel fuel emulsion meets standards set by the California Air Resources Board.~~

- (5) "Qualified retailer" means a person who meets the requirements of subdivisions (b)(1) through (b)(5).
- (6) "Seller" means either the supplier or the wholesaler, as those terms are defined in Revenue and Taxation Code section 6480(c), that sells diesel fuel to a qualified retailer.
- (7) "Total taxable sales" means the gross receipts from the sale of tangible personal property subject to tax, including sales of diesel fuel.

(b) Application of Tax. Commencing on and after October 9, 2002, a seller of diesel fuel is not required to collect the prepayment of sales tax on that percentage of diesel fuel specified in the retailer's diesel fuel prepayment exemption certificate that is otherwise required by Revenue and Taxation Code section 6480.1, provided the diesel fuel is sold to a retailer who:

- (1) Will resell the diesel fuel in the ordinary course of business,

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

- (2) Issues a diesel fuel prepayment exemption certificate to the seller as set forth in subdivision (c),
- (3) Sells diesel fuel to a diesel fuel consumer,
- (4) During the calendar year immediately preceding any purchases of diesel fuel, sold diesel fuel to diesel fuel consumers in which the gross receipts from such sales exceeded 25 percent of that retailer's total taxable sales, and
- (5) Sold more than 50% of its diesel fuel through bulk deliveries or through a cardlock, keylock, or other unattended mechanism, or both.

For purposes of calculating the percentage set forth in subdivision (b)(4) above, the numerator shall be the sum total of amounts ~~entered on Form BOE 401GS line 10(e)(4) (Amount Subject to the partial state tax exemption for Diesel Fuel Used in Farming and Food Processing Exemption)~~ for each return filed during the preceding calendar year and the denominator shall be the sum total of amounts ~~entered on line 14(a) (Transactions Subject to County Tax)~~ for each return filed during the preceding calendar year.

(c) Prepayment Exemption Certificate.

(1) In General. A seller of diesel fuel who takes a diesel fuel prepayment exemption certificate timely and in good faith, as defined in subdivision (c)(5), from a qualified retailer, is relieved from the liability for the sales tax prepayment subject to the exemption under this regulation, or the duty of collecting the sales tax prepayment subject to exemption under this regulation. A diesel fuel prepayment exemption certificate will be considered timely if it is taken any time before the seller bills the qualified retailer for the diesel fuel, any time within the seller's normal billing or payment cycle, or any time at or prior to delivery of the diesel fuel to the qualified retailer. A diesel fuel prepayment exemption certificate which is not taken timely will not relieve the seller of the liability for the sales tax prepayment excluded by the exemption; however, the seller may present satisfactory evidence to the Board that the seller sold the diesel fuel to a qualified retailer. A diesel fuel prepayment exemption under this part shall not be allowed unless the seller claims the exemption on its sales and use tax return for the reporting period during which the transaction subject to the diesel fuel prepayment exemption occurred. The diesel fuel prepayment exemption certificate form set forth in the Appendix may be used to claim the diesel fuel prepayment exemption.

(2) Blanket Prepayment Exemption Certificate. In lieu of requiring a diesel fuel prepayment exemption certificate for each transaction, a qualified retailer may issue a blanket diesel fuel prepayment exemption certificate. The diesel fuel prepayment exemption certificate form set forth in the Appendix may be used as a blanket diesel fuel prepayment exemption certificate. The diesel fuel prepayment exemption certificate in the Appendix may also be used as a specific diesel fuel prepayment exemption certificate if the qualified retailer provides the purchase order or sales invoice number and a precise description of the property being purchased. A blanket diesel fuel prepayment exemption certificate is only valid during the calendar year in which it is provided to the seller.

(3) Form of Prepayment Exemption Certificate. Any document, such as a letter or purchase order, timely provided by the qualified retailer to the seller will be regarded as a diesel fuel prepayment

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

exemption certificate with respect to the sale of diesel fuel if it contains all of the following essential elements:

- (A) The signature of the qualified retailer, qualified retailer's employee, or authorized representative of the qualified retailer.
- (B) The name, address and telephone number of the qualified retailer.
- (C) The number of the seller's permit held by the qualified retailer.
- (D) A statement setting forth the requirements of subdivisions (b)(1) through (b)(5).
- (E) A statement of what percentage of total diesel fuel purchases will be resold to diesel fuel consumers.
- (F) Date of execution of document.

(4) Retention and Availability of Prepayment Exemption Certificates. A seller must retain each diesel fuel prepayment exemption certificate received from a qualified retailer who purchases diesel fuel for resale to diesel fuel consumers for a period of not less than four years from the date on which the qualified retailer claims an exemption for sales tax prepayment based on the diesel fuel prepayment exemption certificate. The Board may require, within 45 days of the Board's request, sellers to provide the Board access to any and all diesel fuel prepayment exemption certificates, or copies thereof, accepted for the purposes of supporting the diesel fuel prepayment exemption.

(5) Good Faith. A seller will be presumed to have taken a diesel fuel prepayment exemption certificate in good faith in the absence of evidence to the contrary. However, a diesel fuel prepayment exemption certificate cannot be accepted in good faith where the seller has knowledge that the diesel fuel will not be sold to a retailer who meets the requirements of subdivisions (b)(1) through (b)(5), will not otherwise be used by diesel fuel consumers, or that the percentage listed on the exemption certificate for sales tax prepayment is inaccurate. A blanket diesel fuel prepayment exemption certificate utilized for sales occurring in a subsequent calendar year in which the blanket diesel fuel prepayment exemption certificate was initially provided to the seller is not accepted in good faith for sales occurring in that subsequent calendar year.

(d) Retailer's Liability for the Payment of Tax.

(1) A qualified retailer providing a diesel fuel prepayment exemption certificate pursuant to subdivision (c) is liable for the taxes imposed by the Bradley-Burns Uniform Local Sales and Use Tax Law, the Transactions and Use Tax Law, and the tax that is imposed under Revenue and Taxation Code section 6051.2 or 6201.2, or under section 35 of article XIII of the California Constitution on the sale of diesel fuel to diesel fuel consumers.

(2) A qualified retailer providing a diesel fuel prepayment exemption certificate pursuant to subdivision (c) is liable for sales tax on any portion of the gross receipts derived from the sale of diesel fuel that is not sold to diesel fuel consumers.

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

(3) A qualified retailer that is liable for the tax under the provisions of subdivisions (d)(1) or (d)(2) shall report and pay that tax with the sales and use tax return filed for the reporting period during which the qualified retailer sells the diesel fuel.

(e) Improper Use of Prepayment Exemption Certificate. Any person who gives a diesel fuel prepayment exemption certificate pursuant to this regulation for the purpose of evading the prepayment of sales tax on sales of diesel fuel that he or she knows at the time of sale do not qualify for the diesel fuel prepayment exemption is guilty of a misdemeanor punishable as provided in Revenue and Taxation Code section 7153. In addition, such person shall be liable to the state for a penalty of one thousand dollars (\$1,000) for each diesel fuel prepayment exemption certificate issued for personal gain or to evade the prepayment of sales tax.

(f) Records. Adequate and complete records must be maintained by the seller and qualified retailer as evidence that the diesel fuel qualifies for the diesel fuel prepayment exemption.

(g) Operative Date. This regulation is operative as of October 9, 2002.

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

REGULATION 1685.5 CALCULATION OF ESTIMATED USE TAX–USE TAX TABLE.

(a) IN GENERAL.

(1) ESTIMATED USE TAX AND USE TAX TABLE. The Board of Equalization (BOE) is required to annually calculate the estimated amount of use tax due according to a person's adjusted gross income (AGI) and make such amounts available to the Franchise Tax Board (FTB), by July 30 of each year, in the form of a use tax table for inclusion in the instructions to the FTB's returns.

(2) WHO IS ELIGIBLE TO USE BOE USE TAX TABLES.

(A) Consumers may elect to use the use tax tables included in the instructions to their FTB returns to report their estimated use tax liabilities for one or more single nonbusiness purchases of individual items of tangible personal property each with a sales price of less than one thousand (\$1,000) on their FTB returns. However, eligible consumers may still calculate their actual use tax liabilities using the worksheets in the instructions to their FTB returns and report their actual use tax liabilities on their FTB returns. Consumers are not required to use the use tax tables included in the instructions to their FTB returns.

(B) The use tax table may not be used to estimate use tax liabilities for business purchases, including purchases made by businesses required to hold a seller's permit or to register with the BOE under the Sales and Use Tax Law and report their use tax liabilities directly to the BOE.

(3) SAFE HARBOR. If eligible consumers use the use tax tables included in the instructions to their FTB returns to estimate their use tax liabilities for qualified nonbusiness purchases and correctly report their estimated use tax liabilities for their qualified nonbusiness purchases in accordance with their AGI ranges, then the BOE may not assess the difference, if any, between the estimated use tax liabilities reported in accordance with the use tax tables and the consumers' actual use tax liabilities for qualified nonbusiness purchases.

(b) DEFINITIONS AND DATA SOURCES.

(1) AGI RANGES. The use tax table shall be separated into fifteen (15) AGI ranges as follows:

(A) AGI less than \$10,000

(B) AGI of \$10,000 to \$19,999

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

- (C) AGI of \$20,000 to \$29,999
- (D) AGI of \$30,000 to \$39,999
- (E) AGI of \$40,000 to \$49,999
- (F) AGI of \$50,000 to \$59,999
- (G) AGI of \$60,000 to \$69,999
- (H) AGI of \$70,000 to \$79,999
- (I) AGI of \$80,000 to \$89,999
- (J) AGI of \$90,000 to \$99,999
- (K) AGI of \$100,000 to \$124,999
- (L) AGI of \$125,000 to \$149,999
- (M) AGI of \$150,000 to \$174,999
- (N) AGI of \$175,000 to \$199,999
- (O) AGI more than \$199,999

(2) USE TAX LIABILITY FACTOR OR USE TAX TABLE PERCENTAGE. For the 2011 calendar year the use tax liability factor or use tax table percentage shall be 0.070 percent (.0007). On June 1, 2012, the BOE shall calculate the use tax liability factor or use tax table percentage for the current calendar year by multiplying the percentage of income spent on taxable purchases for the preceding calendar year by 0.37, multiplying the product by the average state, local, and district sales and use tax rate, and then rounding the result to the nearest thousandth of a percent. On June 1, 2013, and each June 1 thereafter, the BOE shall calculate the use tax liability factor or use tax table percentage for the current calendar year by multiplying the percentage of income spent on taxable purchases for the preceding calendar year by 0.23, multiplying the product by the average state, local, and district sales and use tax rate, and then rounding the result to the nearest thousandth of a percent.

(3) TOTAL PERSONAL INCOME. Total personal income shall be determined by reference to the most current personal income data published by the United States Bureau of Economic Analysis.

(A) Determining the percentage, rounded to the nearest tenth of a percent, of total spending at electronic shopping and mail order houses that are not included in the following categories of items, by reference to the most current retail trade product lines statistics by kind of business data published by the United States Census Bureau:

- (i) Groceries and other foods for human consumption off premises, excluding bottled, canned, or packaged soft drinks;
- (ii) Prescriptions;
- (iii) Video Content Downloads;
- (iv) Audio Content Downloads;
- (v) Prepackaged computer software, including software downloads; and
- (vi) All nonmerchandise receipts.

(B) Adding ten billion dollars (\$10,000,000,000) to the total spending at electronic shopping and mail order houses to account for spending that is not included in the spending data published by the United States Census Bureau; and

(C) Multiplying the sum calculated in (B) by the percentage of total spending at electronic shopping and mail order houses that are not included in the categories of items listed in (A) above so that the result does not include spending on nontaxable purchases, and then rounding the result to the nearest tenth of a percent.

(6) PERCENTAGE OF INCOME SPENT ON TAXABLE PURCHASES. The percentage of income spent on taxable purchases during a calendar year shall be calculated by dividing the total spending on taxable purchases for that year by the total personal income for that year, multiplying the result by 100, and rounding the result to the nearest tenth of a percent.

For example, the total reported taxable transactions (by dollar) for the fourth quarter of 2010 shall be used to determine the weighted average rate of the district tax rates in effect on January 1, 2012, to calculate the weighted average rate of district taxes for calendar year 2012.

(c) CALCULATION OF THE ESTIMATED USE TAX LIABILITY.

(1) The estimated use tax liability for the AGI range described in subdivision (b)(1)(A) shall be determined by multiplying \$5,000 by the use tax liability factor or use tax table percentage and then rounding the result to the nearest whole dollar.

(2) The estimated use tax liability for the AGI ranges described in subdivision (b)(1)(B) through (N) shall be determined by multiplying the midpoint of each AGI range by the use tax liability factor or use tax table percentage and then rounding the result to the nearest whole dollar.

Artificial limbs and eyes, or their replacement parts, including stump socks and stockings worn with artificial legs and intraocular lenses for human beings, qualify as medicines as provided by Revenue and Taxation Code section 6369(c)(5). Tax does not apply to the sale or use of these items when sold or furnished under one of the conditions provided in subdivision (d)(1) through (d)(6).

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

(4) Orthotic Devices. Orthotic devices and their replacement parts, designed to be worn on the person of the user as a brace, support or correction for the body structure are medicines as provided under Revenue and Taxation Code section 6369(c)(3). The sale or use of orthotic devices and their replacement parts is not subject to tax when sold or furnished under one of the conditions provided in subdivision (d)(1) through (d)(6). Orthotic devices and their replacement parts do not need to be furnished by a pharmacist, within the meaning of subdivision (d)(1), to be considered dispensed on prescription provided the devices are furnished pursuant to a written order of a physician or podiatrist. For the purposes of this regulation, orthotic devices furnished pursuant to a written order of a physician or podiatrist by, but not limited to, medical device retailers, clinics, physical therapists, device suppliers, intermediate care facilities, or other such persons, are deemed to be dispensed on prescription within the meaning of subdivision (d)(1).

Orthotic devices worn on the body of the person include, but are not limited to, abdominal binders and supports, ace bandages, ankle braces, anti-embolism stockings, athletic supporters (only for patients recovering from rectal or genital surgery), casts, and cast components, cervical supports, neck collars, cervical traction devices, clavicular splints, post-surgical corsets, elbow supports, head halters, pelvic traction devices, post-operative knee immobilizers and braces, legging orthoses, rib belts and immobilizers, rupture holders, sacral belts, sacro-lumbar back braces, shoulder immobilizers, slings, stump shrinkers, sternum supports, support hose (and garter belts used to hold them in place), thumb and finger splints, trusses, and wrist and arm braces. All of the above must be worn on the body of the person and act as a brace, support or correction for body structure to qualify as a medicine. If any part of the orthotic device is not worn on the person, the device is not a medicine for the purposes of this regulation.

Orthopedic shoes and supportive devices for the foot do not qualify as medicines unless they are an integral part of a leg brace or artificial leg or are custom-made biomechanical foot orthoses. "Custom-made biomechanical foot orthosis" means a device that is made on a positive model of the individual patient's foot. The model may be individually constructed from suitable model material such as plaster of Paris, stone, or wax, and may be manually constructed or fabricated using electronic technology.

"Custom-made biomechanical foot orthosis" do not include:

- (A) any pre-made or pre-molded foot orthosis or shoe insert even if it has been modified or customized for an individual patient by the practitioner regardless of the method of modification;
- (B) any foot orthosis fabricated directly on the patient's foot regardless of the method and materials used and regardless of its individual character; or
- (C) any foot orthosis fabricated inside of the patient's shoe regardless of the method of manufacture and materials used and regardless of its individual character.

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

(5) Prosthetic Devices. Prosthetic devices and their replacement parts designed to be worn on or in the patient to replace or assist the functioning of a natural part of the human body are medicines as provided under Revenue and Taxation Code section 6369(c)(4). The sale or use of prosthetic devices and their replacement parts is not subject to tax when sold or furnished under one of the conditions provided in subdivision (d)(1) through (d)(6). Prosthetic devices and their replacement parts do not need to be furnished by a pharmacist, within the meaning of subdivision (d)(1), to be considered dispensed on prescription provided the devices are furnished pursuant to a written order of a physician or podiatrist. For the purposes of this regulation, prosthetic devices furnished pursuant to a written order of a physician or podiatrist by, but not limited to, medical device retailers, clinics, physical therapists, device suppliers, intermediate care facilities, or other such persons, are deemed to be dispensed on prescription within the meaning of subdivision (d)(1). For purposes of this regulation only, prosthetic devices include bags and tubing, as well as filters, locks, tape, clamps, and connectors which are integral to the tubing, each of which is used to dispense enteral feeding to the patient, including: gastrostomy tubes (also called G tubes) which are used to deliver the nutrition directly into the stomach; jejunostomy tubes (also called J tubes) which are used to deliver the nutrition directly into the intestinal tract; and nasogastric tubes (also called NG tubes) which are used to deliver the nutrition directly through the nasal passage to the stomach. For purposes of this regulation only, prosthetic devices also include needles, syringes, cannulas, bags, and tubing, as well as filters, locks, tape, clamps, and connectors which are integral to the tubing, each of which is used to dispense TPN or IDPN to the patient, provided each of these items is used primarily to dispense the TPN or IDPN.

Prosthetic devices that are considered medicines when worn on or in the patient include, but are not limited to, acetabular cups, atrial valves, breast tissue expanders and tissue expanders, cervical cuffs, dacron grafts, heart valves, orbital implant, nerve cups, rhinoplasty prosthesis, neuromuscular electrical stimulators, transcutaneous nerve stimulators, urinary incontinent devices, and wigs and hairpieces prescribed by a physician or podiatrist.

Prosthetic devices that do not qualify as medicines include, but are not limited to, air compression pumps and pneumatic garments; noninvasive, temporary pace makers; vacuum/constriction devices used to treat male impotency; auditory, ophthalmic and ocular devices or appliances; and dental prosthetic devices and materials such as dentures, removable or fixed bridges, crowns, caps, inlays, artificial teeth, and other dental prosthetic materials and devices. Sales of such items are subject to tax in the same manner as any other sale of tangible personal property.

(6) Drug Infusion Devices. Programmable drug infusion devices to be worn on or implanted in the human body which automatically cause the infusion of measured quantities of a drug on an intermittent or continuous basis at variable dose rates and at high or low fluid volume into the body of the wearer of the device qualify as medicines under Revenue and Taxation Code section

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

6369(c)(6). The sale or use of the qualifying infusion device is not subject to tax when the device is sold or furnished under one of the conditions provided in subdivision (d)(1) through (d)(6).

(c) Exclusions from the Definition of “Medicines.”

Except as otherwise provided in subdivision (b), the following items are specifically excluded from the definition of medicines. Sales of these items are subject to tax in the same manner as any other sale of tangible personal property.

(1) Orthodontic, prosthetic (except as described in subdivision (b)(5)), auditory, ophthalmic or ocular devices or appliances.

(2) Articles which are in the nature of splints, bandages, pads, compresses, supports, dressings, instruments, apparatus, contrivances, appliances, devices or other mechanical, electronic, optical or physical equipment or article or the component parts and accessories thereof. “Medicines” does not include arch supports, cervical pillows, exercise weights (boots or belts), hospital beds, orthopedic shoes and supportive devices (unless an integral part of a leg brace or artificial leg), plastazote inserts, plastazote shoes, plastic shoes (custom or ready-made), sacro-ease seats, shoe modifications, spenco inserts, traction units (other than those fully worn on the patient), thermophore pads, nor foot orthoses.

(3) Any alcoholic beverage the manufacture, sale, purchase, possession or transportation of which is licensed and regulated by the Alcoholic Beverage Control Act (division 9, commencing with sSection 23000, of the Business and Professions Code).

(d) Application of Tax - In General

Tax applies to retail sales, including over-the-counter sales of drugs and medicines, and other tangible personal property by pharmacists and others. However, tax does not apply to the sale or use of medicines when sold or furnished under one of the following conditions:

(1) prescribed for the treatment of a human being by a person authorized to prescribe the medicines, and dispensed on prescription filled by a pharmacist in accordance with law, or

(2) furnished by a licensed physician, dentist or podiatrist to his or her own patient for treatment of the patient, or

(3) furnished by a health facility for treatment of any person pursuant to the order of a licensed physician, dentist or podiatrist, or

(4) sold to a licensed physician, dentist, podiatrist or health facility for the treatment of a human being, or

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

(5) sold to this state or any political subdivision or municipal corporation thereof, for use in the treatment of a human being; or furnished for the treatment of a human being by a medical facility or clinic maintained by this state or any political subdivision or municipal corporation thereof, or

(6) effective January 1, 1995, furnished by a pharmaceutical manufacturer or distributor without charge to a licensed physician, surgeon, dentist, podiatrist, or health facility for the treatment of a human being, or to an institution of higher education for instruction or research. Such medicine must be of a type that can be dispensed only: (a) for the treatment of a human being, and (b) pursuant to prescriptions issued by persons authorized to prescribe medicines. The exemption provided by this subdivision applies to the constituent elements and ingredients used to produce the medicines and to the tangible personal property used to package such medicines.

(e) Specific Tax Applications.

(1) Prescriptions. No person other than a licensed physician, dentist, optometrist or podiatrist is authorized to prescribe or write a prescription for the treatment of a human being. Tax does not apply to the sale or use of medicines prescribed by a licensed physician, dentist, optometrist, or podiatrist for the treatment of a human being and dispensed on prescription filled by a pharmacist.

(2) Licensed Physician, Dentist or Podiatrist. Tax does not apply to a specific charge made by a licensed physician, dentist or podiatrist to his or her own patient for medicines furnished for the treatment of the patient. Tax also does not apply to sales of medicines to licensed physicians, dentists or podiatrists for the treatment of a human being regardless of whether the licensed physician, dentist or podiatrist makes a specific charge to his or her patient for the medicines furnished.

(3) Health Facility. Tax does not apply to sales of medicines by a health facility (as defined in subdivision (a)(4)) for the treatment of any person pursuant to the order of a licensed physician, dentist or podiatrist. Tax does not apply to sales of medicines to a health facility for the treatment of a human being regardless of whether or not a specific charge is made for the medicines.

(4) Pharmaceutical Manufacturer or Distributor. Tax does not apply to the storage, use or consumption of medicines furnished by a pharmaceutical manufacturer or distributor without charge to a licensed physician, surgeon, dentist, podiatrist, or health facility for the treatment of a human being or furnished without charge to an institution of higher education for instruction or research provided the medicines furnished are of a type that can be dispensed only (1) on prescription by persons authorized to prescribe and (2) for the treatment of a human being. The exemption from tax includes the costs of the materials used to package the “sample” medicines, such as bottles, boxes, blister packs, patches impregnated with medicines, or pre-filled syringes, and the elements and ingredients used to produce the “samples” whether or not such items are purchased under a resale certificate in this state or outside this state. When a pre-filled syringe or

other such delivery device is used to package and contain a sample medicine (i.e., pre-filled with the medicine) as well as to inject or otherwise administer the medicine to the patient, the exemption from tax will not be lost due to the fact that the device is used for a dual purpose. However, the use of empty syringes or other such delivery devices, furnished to the licensed physician separately or included in the packages with the medicines, is subject to tax.

This exemption applies in the same manner to the use of clinical trial medicines during the United States Food and Drug Administration's drug development and approval process. "Clinical trial medicines" are substances or preparations approved as "Investigational New Drugs" by the United States Food and Drug Administration intended for treatment of, and application to, the human body, which are furnished by a pharmaceutical developer, manufacturer, or distributor to a licensed physician and subsequently dispensed, furnished, or administered pursuant to the order of the licensed physician. "Clinical trial medicines" do not include placebos. Placebos are not used for the treatment of a human being and, as such, do not qualify for the exemption provided under this subdivision. Thus, the use of placebos is subject to tax.

(5) Antimicrobial Agents Used by Hospital Personnel. Tax does not apply to the sale or use of substances or preparations, such as antiseptic cleansers or scrubs, when such substances or preparations qualify as medicines and are used by hospital personnel on the patient or by hospital personnel on their own bodies to benefit the patient, and which constitute a critical component of the patient's treatment. Qualifying medicines used on the bodies of hospital personnel include antimicrobial agents used for preoperative scrubbing or hand cleansing prior to any patient contact such as Accent Plus Skin Cleanser; Accent Plus Perinal Cleanser; Bacti-Stat; Betadine; and Medi-Scrub. However, antimicrobial agents such as Accent Plus 1 Skin Lotion; Accent Plus 2 Body Massage; Accent Plus 2 Skin Crème; and Accent Plus Total Body Shampoo applied to the body of hospital personnel are not considered used in the treatment of the patient and the sale or use of these products is subject to tax.

(6) Vitamins, Minerals, Herbs, and Other Such Supplements. In general, sales of vitamins, minerals, herbs and other such supplements are subject to tax. However, when vitamins, minerals, herbs and other such supplements are used in the cure, mitigation, treatment or prevention of disease, and are commonly recognized as a substance or preparation intended for such use, they will qualify as medicines for the purposes of Revenue and Taxation Code section 6369. As such, their sale or use is not subject to tax when sold or furnished under one of the conditions in subdivision (d)(1) through (d)(6).

(7) Dietary Supplements and Adjuncts. Dietary supplements and adjuncts furnished to a patient as part of a medically supervised weight loss program to treat obesity qualify as medicines for the purposes of Revenue and Taxation Code section 6369 when the product does not otherwise qualify as a food product under Regulation 1602. The sale or use of such products is not subject

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

to tax when sold or furnished under one of the conditions in subdivision (d)(1) through (d)(6) of Regulation 1591.

(8) Diagnostic Substances, Test Kits, and Equipment. Tax applies to the sale or use of diagnostic substances applied to samples of cells, tissues, organs, or bodily fluids and waste after such samples have been removed, withdrawn, or eliminated from the human body. Diagnostic substances are applied to the samples outside the living body (“in vitro”) in an artificial environment. They are not administered in the living body (“in vivo”). As the substances are not applied internally or externally to the body of the patient, they do not qualify as medicines under Revenue and Taxation Code section 6369.

Except as provided in Regulation 1591.1(b)(4), tax applies to the sale or use of test kits and equipment used to analyze, monitor, or test samples of cells, tissues, organs and blood, saliva, or other bodily fluids. Such items do not qualify as medicines regardless of whether they are prescribed for an individual by a person authorized to prescribe and dispensed pursuant to a prescription.

(f) Insurance Payments

(1) Medical Insurance and Medi-Cal. The exemption of retail sales of medicines is not affected by the fact that charges to the person for whom the medicine is furnished may be paid, in whole or in part, by an insurer. This is so even though a joint billing may be made by the retailer in the name of both the person and the insurer.

(2) Medicare

(A) Medicare Part A. Tax does not apply to the sale of items to a person insured pursuant to Part A of the Medicare Act as such sales are considered exempt sales to the United States Government. Under Part A, the healthcare provider has a contract with the United States Government to provide certain services. Therefore, sales of medicines, devices, appliances, and supplies in which payment is made under Part A qualify as exempt sales to the United States Government.

(B) Medicare Part B. Tax applies to sales of items to a person in which payment is made pursuant to Part B of the Medicare Act. Sales made under Part B do not qualify as exempt sales to the United States Government even though the patient may assign the claim for reimbursement to the seller and payment is made by a carrier administering Medicare claims under contract with the United States Government. Under Part B, the seller does not have a contract with the United States Government. The contract is between the patient and the United States Government. Unless the sale is otherwise exempt (such as a sale of a medicine under subdivision (d)), the sale is subject to tax.

The proposed amendments contained in this document may not be adopted. Any revisions that are adopted may differ from this text.

(3) Employer Medical Contracts. Certain employers have contracted with their employees to provide the latter with medical, surgical and hospital benefits in a hospital operated by or under contract with the employer for a fixed charge. Usually the charge is by payroll deduction. These contracts are not insurance plans; rather, they are agreements to furnish specified benefits under stated conditions, one of which may be that no charge is to be made to the employee for prescribed medicines. The agreements may provide for making a charge for medicines furnished to out-patients but not to in-patients. This in no way affects the exemption of sales of medicines.

(g) Records.

Any pharmacy whether in a health facility or not must keep records in support of all deductions claimed on account of medicines. Section 4081 of the Business and Professions Code requires that all prescriptions filled shall be kept on file and open for inspection by duly constituted authorities.

Pursuant to Section 4081 of the Business and Professions Code, physicians and surgeons and podiatrists must keep accurate records of drugs furnished by them. Any deduction on account of sales of medicines shall be supported by appropriate records.

(1) The following written information constitutes acceptable documentation for retailers in those cases where sales are made of supplies which are “deemed to be dispensed on prescription” within the meaning of Section 6369:

Name of purchaser

Name of doctor

Date of sale

Item sold

The sale price

(2) “Double Deduction” Unauthorized. The law does not, of course, permit a double deduction for sales of exempt medicines. For example, if an exemption is claimed on account of a sale of a prescription medicine, no additional deduction for the same sale may be taken as a sale to the United States Government under the Medicare Program.

(3) Persons making purchases of items in which their sale or use is exempt under this regulation should give their suppliers an exemption certificate pursuant to Regulation 1667.
