New Mobile Application Allows Taxpayers to Easily Make ePayments
BOE ePay - fast, easy, safe and convenient way to do business

Sacramento – Calling all owners of iPhones, Androids and other mobile devices.

The California State Board of Equalization (BOE) is offering a free application, BOE ePay, that allows owners of most mobile devices to make payments to their BOE tax and fee accounts, announced George Runner, BOE Second District Member. BOE ePay provides a fast, easy, safe and convenient new way to do business.

“It’s no fun paying taxes, but it’s even worse when government doesn’t make it quick and easy,” said Runner. “If done right, mobile apps and other innovative technologies could make paying taxes a bit less painful for 21st century taxpayers.”

BOE ePay enables taxpayers to use their credit card, checking or savings account to make ePayments, view their ePayment history and register and manage their eClient account. Taxpayers must register as an eClient to use all application features. An Express Login code is available to taxpayers who simply want to make ePayments.

To see BOE ePay in action, check out the video and find the application here: www.boe.ca.gov/mobile/. Blackberry and other mobile devices can use BOE ePay as long as they use a web browser other than Internet Explorer.

The application is the latest created by the BOE. Another application allows taxpayers to find the sales tax rate of any jurisdiction and locate their district office. These applications are another way the BOE is making it easier for Californians to comply with tax laws and regulations.

Elected in November 2010, taxpayer advocate George Runner represents the Second District of the Board of Equalization. Runner was sworn in as Second District Board Member on January 3, 2011. Prior to his election to the Board, Runner served twelve years in the State Legislature. As a thoughtful conservative, his legislative priorities included improving the economy, business growth, education excellence, and public safety for all Californians. As a member of the Senate Revenue and Taxation Committee, Runner consistently led the fight against tax increases and supported tax relief for families and businesses.

The five-member California State Board of Equalization (BOE) is a publicly elected tax board. The BOE collects more than \$50 billion annually in taxes and fees supporting state and local government services. It hears business tax appeals, acts as the appellate body for franchise and personal income tax appeals, and serves a significant role in the assessment and administration of property taxes. For more information on other taxes and fees in California, visit www.taxes.ca.gov.
