No. 2017/036

September 13, 2017

TO COUNTY ASSESSORS:

**2018 LIEN DATE
PER-ACRE VALUE OF CALIFORNIA IRRIGATED CROPLAND**

Article XIII, section 8 of the California Constitution authorizes the Legislature to designate property that produces food or fiber as "open-space land." The designation promotes the conservation, preservation, and continued existence of these lands by allowing property tax benefits when its use is enforceably restricted. Accordingly, Government Code section 51042 allows cities and counties to create Urban Agriculture Incentive Zones, and offer landowners preferential property tax assessment if the landowner restricts urban land for small-scale agricultural use.

Revenue and Taxation Code section 422.7 requires a county assessor to value land that is enforceably restricted by a contract at a rate based on the average per-acre value of irrigated cropland in California. Section 422.7 provides in part:

. . . (c) The State Board of Equalization shall post the per-acre land value as published by the National Agricultural Statistics Service of the United States Department of Agriculture on its Internet Web site within 30 days of publication, and shall provide the rate to county assessors no later than January 1 of each assessment year.

As reported in the National Agricultural Statistics Service (NASS) of the United States Department of Agriculture (USDA) *Land Values 2017 Summary—August 2017* report, page 13, the average per-acre value for irrigated cropland in California for the 2018 lien date is \$13,300. The USDA/NASS report may be accessed at:

<http://usda.mannlib.cornell.edu/usda/current/AgriLandVa/AgriLandVa-08-03-2017.pdf>

The information for the 2018 lien date, as well as the average per-acre values for prior lien dates, is posted on the Board's website at:

www.boe.ca.gov/proptaxes/uaincentivezone.htm

Letter To Assessors 2013/056¹ provides an explanation and examples for calculating land values under the provisions of section 422.7.
